ABOUT PROMET

The Promet Group of companies includes four plants located in Moscow, the Tula region of the Russian Federation and the Republic of Bulgaria.

The company is constantly improving and introducing advanced technologies and equipment: reconstructions of production areas are being carried out, new production lines are being launched.

The manufacturing philosophy is based on the principles of continuous improvement.

The quality management system has been certified in accordance with the ISO 9001 international standard since September 2001 by the DNV GL Certification Company– one of the largest and most authoritative international certification organizations.

The Hilfe medical furniture brand was founded in 2013. The entire range of Hilfe brand products meets the requirements of the Ministry of Health.

COMPANY FOUNDED IN 1991 **30** YEARS

The thirty-year history of Promet company - is bright victories, hard work, overcoming crises and difficulties that have only made us stronger. We have achieved a lot - this is not only the recognition of the company in the market, but also the success of our partners. Now Promet is an extensive dealer network, the best professionals, modern equipment and well-established processes.

OUR PRODUCTS AND SERVICE

HILFE

The word Hilfe means "help" in German, so we develop and manufacture medical furniture that helps doctors and medical staff in organizing treatment and patient care. Patients feel comfortable and safe while waiting for an appointment, during examination and during medical procedures.
We use modern materials and technologies in steel treatment, plastic and chipboard, which allow us to achieve the strength characteristics and functionality of our products. Behind the visual lightness of the structures lies reliability and balance. The covering and upholstery of our medical furniture meet the requirements of durability, ease of care and hygiene. Medical furniture of the Hilfe trademark meets all the requirements of state certification.

We provide warranty and post-warranty service and repair of our products.

We can deliver and install your new furniture anywhere in the country or the world using our own vehicles and trained installers.

MEDICAL CUPBOARDS

Series MD 1/ MD *2*

Cabinets are designed for storing medicines, instruments, hospital documents, patient cards in medical centers and hospitals

SINGLE-DOOR CUPBOARDS

- Rigid, reliable construction of cabinets made of high-quality steel with metal and glass doors 4 mm thick
- Metall doors are equipped with key lock HILFE (2000 combinations)
- Glass doors are equipped with magnetic latches fixing the door in the closed state
- Cabinets are equipped with four metal shelves in cabinets with glass (SG) – two metal, two glass shelves, glass shelf thickness of 5 mm,
- Max load per metall shelf – 30 Kg,
  per glass shelf – 10 Kg
- Height-adjustable supports (the minimum height of the supports is 100 mm, maximum height - 130 mm)
- Standard color: wight (RAL 9016).
- Coating type: powder paint (non-toxic, fireproof, resistant to impacts chips and the effects of chlorine-containing drugs
- Delivered disassembled.

MEDICAL SHELVING *CTM MS Series*

- Easy assembly using bolts without nuts
- Shelves are reinforced with a stiffening rib, which ensures their strength
- Color: grey (RAL 7038); coating type: powder paint (non-toxic, fireproof, resistant to impact, chipping and exposure to chlorine-containing preparations during daily maintenance and cleaning)

CERTIFIED

MEDICAL SAFES-THERMOSTATS
Semiconductor type

Used for storing of narcotic drugs, psychotropic substances and their precursors for medical use, subject to control.

CERTIFIED

Outputs to the RS-485 network and alarm circuits

Lockable working chambers with individual lighting for separate and simultaneous storage of medicines in modes:

- Cold place (from **+2,0 °C** to **+8,0 °C**);
- Cool place (from **+8,0 °C** to **+15,0 °C**);
- Room temperature (from **+15,0 °C** to **+25,0 °C**)

SAFE-THERMOSTATIC **TS-3/25,**
MODEL **FORT-M 1385.3**

Digital controller
Simultaneous control and indication of prescribed temperature and actual temperature.

Lockable boxes with individual lighting, boxes without providing thermal modes for separate and simultaneous storage of medicines

- Environmental safety (no refrigerant)
- Joint and separate storage of drugs in different temperature conditions (in models with two or more chambers)
- Digital display: set and actual temperatures
- High accuracy of temperature maintenance in working chambers ± 0.5 °C
- Providing remote monitoring and archiving of storage temperature values
- Electronic seals - safe door opening counters (IV class) or devices for disposable control seals
- Low power consumption and resistance to changes in power supply voltage
- Low noise

MEDICAL SAFES-THERMOSTATS
Semiconductor type

VALBERG

- Safe wall and door protection with 3-sided bolt locking system
- Locks and bolts protection from drilling and knocking with lock of bolt locking system
- Sealing device
- Color: structured white (RAL 9016); coating type: enamel
- Anchor fixing to the floor (Anchor included)
